

CREATING THE PERFECT ELEVATOR

KONE Design Collection Premium

CREATING THE PERFECT ELEVATOR

When it comes to creating a consistent look and feel throughout your building, elevators play a key role. By freely combining KONE's flexible and versatile selection of materials and accessories, you can create an elevator interior that matches your building's design perfectly.

HOW TO CREATE YOUR CUSTOM ELEVATOR DESIGN

1 Choose the combination of wall, floor, and door material

Our wide range of available choices ensures that you can find the perfect combination to match your building's design, budget, and intended use requirements. For example, if durability and comfort are important, stone flooring is long-lasting and maintains its appearance even under heavy use, while colored or wood laminate wall finishes help to create a warm ambience inside the car. For a more exclusive look and feel, our new patterned steel and 3D glass finishes can really make your elevator stand out.

2 Select your ceiling design

KONE offers a wide range of different ceiling designs, equipped with modern and innovative lighting solutions that help create just the right atmosphere inside the elevator. Our ceilings are designed to give the best possible lighting quality while avoiding glare, ensuring every elevator trip is a pleasant and safe one. KONE's lighting solutions are also energy efficient – our LED lights use 80% less energy than traditional halogen lights.

3 Choose your accessories

Our accessories are designed to increase convenience for passengers, and include options such as handrails, seats, car operating panels, information screens, and tenant directories. KONE accessories have been designed to meet the specific requirements of different users and building types. For example, we offer special graphics designed for car operating panels in senior housing and children's hospitals, as well as customizable solutions for office, hotel, and retail environments.

MATERIALS AND ACCESSORIES FOR ALL PURPOSES

This catalog presents our complete selection of elevator car interior materials and accessories. The options are grouped into three categories: basic, standard, and premium. Premium materials and accessories have been created using exclusive materials and components.

Consult your KONE sales contact to discuss your final interior selection and to get any additional information and support you may need.

MIX & MATCH CAR ELEMENTS

PREMIUM CAR DESIGN COLLECTION

Classic Chic

Rich, time less designs that balance the natural with the modern.

23001

CEILING: CL162 Silver (MP1) mirror polished stainless steel, **WALL B:** Silver (MP6) satin stainless steel, **WALL C:** Silver Curve (ST33S) etched stainless steel, **WALL D:** Sand Oak (L89) wood pattern laminate, **FLOOR:** Light Sand (M7R) artificial stone, **HANDRAIL:** HR65, Asturias Satin (F1) scotch brite steel, **SKIRTING:** Silver (ST4) brushed stainless steel
